Trustees' Annual Report

To the Honorable Judges of the District Court of the United States, for the District of Minnesota, Fourth Division:

Submitted herewith is a report for the fiscal year ended December 31, 1942.

The following condensed statement shows the results of the operations for the year 1942 as compared with 1941:

	Year 1942	Year 1941
Railway Operating Revenues	.\$22,718,021.99 . 17,076,896.06	\$19,731,911.13 15,500,031.38
Net Revenue from Railway Operations Net Equip., Jt. Facil. Rents and Taxes—Dr		\$ 4,231,879.75 1,918,310.50
Net Railway Operating Income Other Income—Net		\$ 2,313,569.25 130,607.49
Income before fixed charges	t	\$ 2,444,176.74
Obligations and Miscellaneous Accounts being paid by Trustees		55,446.13
Balance	*\$ 3,911,116.52	*\$ 2,388,730.61

^{*}After \$545,696.02 in 1942 and \$396,820.91 in 1941 charged to Operating Expenses for special amortization of equipment in excess of regular depreciation charges, authorized by a Defense Certificate of the War Department.

In addition to the fixed charges being paid by the Trustees, interest was accrued on the books of the Company on its Bonds, Notes, Advances, etc., amounting to \$6,544,711.53 in 1942, as compared with \$6,551,366.94 for the preceding year.

Products of Agriculture: An unusually cool summer with abundant rainfall over practically all of our territory was very beneficial to most small grain and feed crops. However, the corn crop in many sections did not mature due to the cool weather and an early frost. Potatoes in many localities were damaged by excessive moisture and frost.

It is estimated that the 1942 grain crop produced in Soo Line territory, west of Minneapolis and Duluth, amounted to approximately 57,000,000 bushels, of which 29,854,396 bushels moved to market between August 1 and December 31, 1942, the balance remaining in elevators and on farms along the line.

Revenue from the movement of grain during the entire year 1942 amounted to \$6,088,831 as compared to \$5,397,580 in 1941, an increase of \$691,251, or 12.81%. Revenues from other products of agriculture amounted to \$692,616 in 1942 as compared to \$573,036 in 1941, an increase of 20.87%.

Agricultural development work and educational activities were carried on in cooperation with various state and federal organizations. Every effort was made to foster increased production vitally necessary to the war effort.

The table below shows the total movement of grain in bushels over the Soo Line, beginning in 1922, separated between that originated on line and received from connections in the grain territory, and other movements consisting chiefly of transfers of grain between Minneapolis and the Head of the Lakes.

(000 omitted from bushels)

Animals and Products: This class of traffic shows an increase of \$70,664, or 9.98%, in revenues as compared with the year 1941. Shipments of nearly all commodities included in this group increased. The decrease in shipments of butter was due to truck competition.

Products of Mines: There was an increase of \$666,699, or 22.84%, in revenues from the transportation of products of mines as compared with the previous year. Due to the war, there was an increased tonnage of nearly all products of mines. Total tonnage of iron ore via the Soo Line amounted to 1,723,396 long tons in 1942 as compared to 1,341,766 long tons in 1941. Tonnage via the Soo Line from the Cuyuna Range to our joint Superior dock amounted to 1,125,757 long tons as compared to 985,597 long tons in 1941. In addition 264,447 long tons were forwarded from the Cuyuna Range to the Head of the Lakes and delivered to other railroads. Due to unusual conditions 125,555 long tons moved all rail from the Cuyuna Range to St. Louis. The remaining tonnage involved interchange and switch movements to and from connecting railroads.

Products of Forests: There was an increase of \$428,667, or 20.67%, in revenues from the transportation of this class of traffic as compared with the previous year. The increase is due principally to shipments of pulpwood and other forest products from Canada.

Manufactures and Miscellaneous: Revenues from transportation of commodities included in this group increased \$570,669, or 11.06%, as compared with the previous year. While a great many of these commodities showed an increase, there were substantial decreases in certain commodities such as, petroleum oils, agricultural implements and automobiles, because of war restrictions.

Passenger Revenue was \$1,031,452, an increase of \$374,362, or 56.97%, as compared to the previous year. There was an increase of 45.54% in the number of revenue passengers carried which was due to restricted use of private automobiles and increased military travel. Increased passenger fares which became effective February 10, 1942 were also a contributing factor.

Railway Operating Expenses for the year 1942 compared with the previous year were as follows:

			Increase or	Decrease
	1942	1941	Amount	Per Cent
Railway Operating Revenues \$	22,718,022	\$19,731,911	\$2,986,111	15.13

Net Revenue from Railway				
Operations\$	5,641,126	\$ 4,231,880	\$1,409,246	33.30

Maintenance of Way and Structures Expense increased \$219,060, or 6.29%, which was due principally to wage increases, an increased ballast program, increased police protection of bridges, vacation allowances referred to in last year's report, abnormal repairs to tracks caused by heavy rains in the Spring and Fall, and higher material costs. These increases were partially offset by a reduction in the cost of snow removal, fewer tie renewals, and by a reduction in retirement losses for buildings and structures.

Effective January 1, 1943, under an order of the Interstate Commerce Commission, monthly charges for depreciation of buildings, structures, and shop machinery will be included in the various maintenance accounts in lieu of retirement accounting, which was in effect prior to that time.

Maintenance of Equipment Expense increased \$529,047, or 15.24%, which includes a special charge of \$545,696 (as compared with \$396,821 in the previous year) in excess of regular depreciation charges, for amortization of new equipment over a five year period pursuant to a defense certificate which was authorized by the War Department. Excluding these special charges the increase amounted to \$380,172, or 12.37%, and is due principally to increased wage rates, depreciation charges, higher material costs, and vacation allowances with pay. Locomotive miles decreased 0.11%. Freight car miles increased 3.70% as compared with 1941, while there was a decrease of 3.37% in passenger car miles. The ratio of Maintenance of

Equipment Expenses, excluding special amortization charges, to Total Operating Revenues decreased from 15.58% in 1941 to 15.20% in 1942. Including the special amortization charge the ratio increased from 17.59% in 1941 to 17.61% in 1942.

Transportation Expenses increased \$746,723, or 10.05%. The increased expense is principally due to increased rates of pay and higher material costs. The ratio of Transportation Expenses to Gross Revenue decreased from 37.67% in 1941 to 36.00% in 1942. There was an increase of only 1.10% in freight train miles over the previous year. Gross tons per train increased from 1448 tons in 1941 to 1552 tons in 1942, or 7.18%. The average net tons per loaded freight car increased from 29.3 tons in 1941 to 32.7 tons in 1942, or 11.6%.

Hire of Equipment: Net credit for the year 1942 amounted to \$99,064 as compared to a net debit of \$160,290 for the previous year. There was a substantial increase in the net rental received from foreign lines, and a decrease in the amounts paid to private car companies for the use of their equipment.

Joint Facility Rents: Net charges for the year 1942 amounted to \$186,243 as compared to \$293,303 for the previous year, a decrease of \$107,060. Last year's report included a non-recurring item of \$131,826 in connection with refinancing the bonds of the St. Paul Union Depot Company. Effective January 1, 1942, rental for equipment and payroll taxes in connection with the use of joint facilities were charged to Joint Facility Rents in accordance with Interstate Commerce Commission regulations, whereas such charges were formerly included in equipment rents and taxes.

Railway Tax Accruals for the year 1942 amounted to \$1,569,512 as compared to \$1,464,717 for the year 1941. Property and gross earnings taxes were \$933,090, an increase of \$35,305. Railroad Retirement Taxes were \$315,876, an increase of \$33,264, and Unemployment Compensation Taxes were \$315,701, an increase of \$33,106, because of increased pay rolls.

Property Investment: The investment in Road Account shows a net increase for the year of \$93,134. Gross charges aggregated \$475,138, of which amount \$374,590 was financed through the recovery of salvage from retirements charged to Profit and Loss, retirement losses charged to Operating Ex-

penses, Donations, and Grants from Governmental Agencies, leaving a balance of \$100,548 appropriated from net earnings. The program included the relay of 39.91 miles of track with new 90 pound rail, and 24.47 miles of track with rail recovered from other relay projects; the placing of additional tie plates and ballast; the construction of 6.48 miles of additional side and yard tracks at various points; the renewal and filling of bridges; the installation of 5 water stations; 1 remote control switch machine with signals at Wisconsin Junction, Wisconsin; improvements to 2 interlocking plants; and the purchase of roadway machines and shop machinery. Retirements totaling \$382,004 include 19.42 miles of side and yard tracks at various points; 9 water stations; 1 interlocking plant; 3 depot buildings; 18 minor road and terminal structures; and various bridges.

The Equipment investment account increased in the amount of \$516,131. Gross charges aggregating \$810,695 include such major items as the purchase of 100 auto box cars and 4 used steam locomotives; the rehabilitation of 8 used locomotives; the construction of 3 new locomotive tenders; the application of "AB" brake equipment to freight-train cars; application of mechanical stokers, feed water heaters and mechanical lubricators to 4 locomotives; air conditioning and remodeling 2 passenger-train cars; and purchase of 3 automobiles and 1 truck. Retirements in the sum of \$294,565 include 3 steam locomotives, 6 extra locomotive tenders, 169 freight-train cars, and 7 passenger-train cars

Funded and Unfunded Debt: During the year principal payments of \$558,426 were made on equipment purchase contracts. The principal on notes to The Railroad Credit Corporation was reduced \$31,760.

Wage Increases: Wage increases granted to the non-operating railway labor organizations and the train and engine service organizations referred to in the 1941 report, which were in effect during the entire year of 1942, amounted to approximately \$1,347,000.

On September 25th, 1942 the non-operating railway labor organizations served notice under the provisions of the Railway Labor Act, making further demands including a "closed"

shop agreement and an increase in existing rates of pay of twenty cents per hour, with a minimum base rate of seventy cents per hour. Carriers' Conference Committees were organized and met with the Employees National Conference Committee and, after failure to reach an agreement in the matter of wages and rules, the Chairman of the National Railway Labor Panel appointed an emergency board to investigate the dispute and report thereon. No decision by the Board has been announced.

On January 25th, 1943 the train and yard service organizations served notice under the Railway Labor Act requesting a thirty per cent increase in basic rates with a minimum increase of \$3.00 per day. A Carriers' Conference Committee met with representatives of the organizations and, failing to reach an agreement, the matter was likewise referred to the National Railway Labor Panel on February 24th, 1943. No Board to investigate the matter has been appointed.

Rate Increases: In January, 1942, the Interstate Commerce Commission granted the railroads an increase, effective February 10, 1942, of 10% on all passenger fares, excepting military and naval furlough travel, and also granted increases effective March 18, 1942, of 6% on interstate freight rates generally, but only 3% on products of agriculture, animals and products, and certain products of mines. No increases were authorized on iron ore. On coal and coke, increases ranged from 3c to 5c per ton.

Petitions to cancel these increases were filed by several Federal and State agencies and shippers' organizations. The railroads, through the Association of American Railroads, opposed those petitions. The increases were authorized mainly to provide revenue to meet the increased wage rates granted in 1941, previously described. However, the Commission, after hearings, issued an order effective May 15, 1943 suspending until January 1, 1944 all increases in freight rates which became effective March 18, 1942. Passenger fares, except interstate commutation fares, were not disturbed. Based upon the volume of traffic moved in the year 1942, it is estimated, that on an annual basis, the increased rates would have added approximately \$930,000 to the company's gross revenues.

Wisconsin Central Railway Company: The Wisconsin Central properties are still in receivership and are operated by the Trustees of the Soo Line, with the approval of the Court, as Agents for the Receiver of the Wisconsin Central pursuant to an operating agreement.

Soo Reorganization Proceeding: A Plan of Reorganization for this Company, substantially the same as described in last year's annual report, was approved by the Interstate Commerce Commission on June 17, 1942. After notice to all parties, the Plan was submitted to the United States District Court for the District of Minnesota. After hearing the parties who appeared in opposition to, and in support of, the Plan, the Court entered an Order on November 13, 1942, approving the Plan certified to it by the Commission, with a few minor modifications.

On the same date the Court authorized the payment of allowances for fees and expenses in connection with the Reorganization Proceeding and Plan to and including June 30, 1942 in the total amount of \$151,651.26, all of which were paid during the year 1942. The allowances were in accord with the maximum limits set by the Interstate Commerce Commission.

On February 11, 1943, the Interstate Commerce Commission submitted the Plan to a vote of the security holders entitled by reason of their lien rights to participate in the distribution of the Company's assets. Sixty days were allowed by the Commission for the vote. The Commission found, and the Court affirmed the finding, that the claims of general unsecured creditors and stockholders of the Company were of no value inasmuch as the assets of the Company were not sufficient to satisfy its secured claims having priority over them. Therefore, the Plan was not submitted to those classes.

An appeal was taken from the Court's Order approving the Plan of Reorganization on a few points involved, but on motion of the Trustees and the Life Insurance and Savings Banks Groups, the Circuit Court of Appeals for the Eighth Circuit, on April 12, 1943, dismissed the Appeal. There are now no appeals pending in the proceedings.

On April 27, 1943, the Commission issued its certificate showing the result of the vote. Nearly 100% of those voting in each class to which the Plan was submitted, voted to accept it.

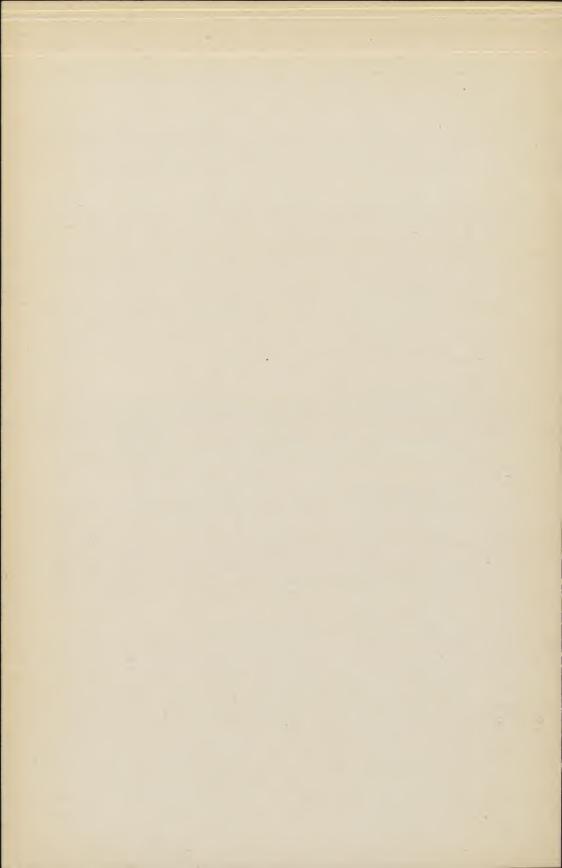

The Plan will now be submitted to the Court for a review of the vote and, if confirmed, reorganization managers will be appointed to consummate the Plan. The reorganization managers will arrange for the deposit of the old securities, the issuance of the new securities, and the execution of the necessary instruments to put the Plan into effect. Security holders will be notified when and where their securities should be deposited and no deposits can be made in the meantime.

The Trustees commend the officers and employes of the Company for their wholehearted support of the war effort by their purchases of war bonds and stamps, and contributions to the Red Cross and other service organizations. At the present time there are 962 employes in the armed service. They also take pleasure in acknowledging and expressing appreciation to them for their continued loyalty and devotion to duty which made possible the results for the year.

G. W. Webster,
Joseph Chapman,
Trustees.

James L. Hetland, Counsel for Trustees.

Minneapolis, Minnesota. May 5, 1943.

In Memoriam

SIR EDWARD WENTWORTH BEATTY, G. B. E.

On March 23rd of the present year there occurred at Montreal the death of Sir Edward Wentworth Beatty, G.B.E., in the 66th year of his age.

Sir Edward was for many years Chairman and President of Canadian Pacific Railway Company, the majority stockholder of this Company. He was since 1922 one of our Directors

During Sir Edward's term of office he gave close attention to this Company's affairs, and throughout the trying years prior to the present reorganization proceeding he gave it the full benefit of his broad experience and mature judgment in railway matters. In his death this Company has sustained a heavy loss, and its Officers and Directors desire to place on record this expression of their keen regret at the passing of a man who was a great strength and support in the administration of its affairs.

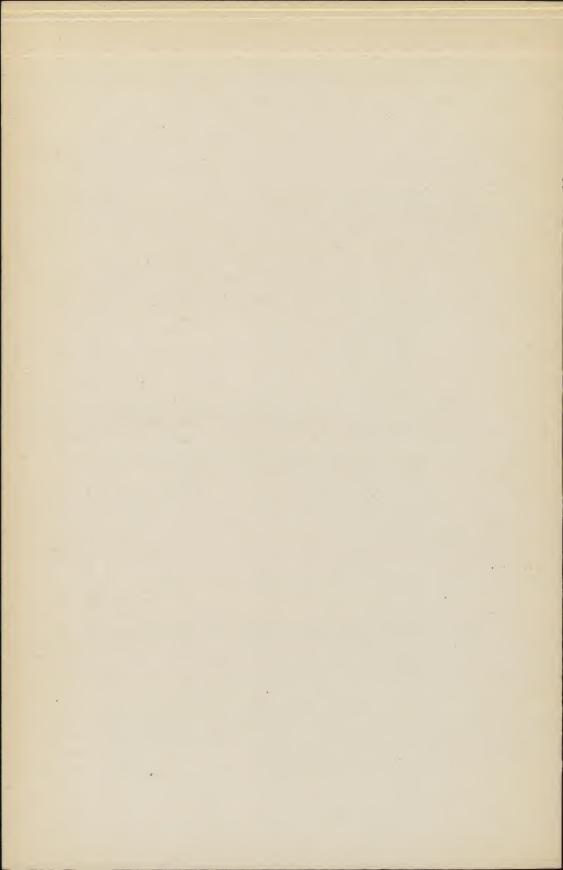

In Memoriam

WILLIAM NORMAN TILLEY, K.C.

It is with deep regret that the Directors record the death at Toronto on June 10th, 1942, of Mr. William Norman Tilley, K.C., in the 75th year of his age.

Mr. Tilley was a Director and a member of the Executive Committee of Canadian Pacific Railway Company, and had been since 1928 a member of our Board of Directors.

He gave to this Company the full benefit of his wide experience and profound legal knowledge in connection with many special problems which during his term of office came under review by this Board. The Officers and Directors desire to record their sense of keen regret at the loss which the Company has sustained in his death.

To Messrs. G. W. Webster and Joseph Chapman, Trustees,
Minneapolis, St. Paul & Sault Ste. Marie Railway Company,
Minneapolis, Minnesota.

We have examined the balance sheet of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company as of December 31, 1942 and the statements of income and profit and loss for the year ended on that date, have reviewed the system of internal control and the accounting procedures of the company and, without making a detailed audit of the transactions, have examined or tested accounting records of the company and other supporting evidence, by methods and to the extent we deemed appropriate. Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which we considered necessary.

In our opinion, the accompanying balance sheet and related statements of income and profit and loss, incorporating the transactions of the trustees and with notes thereon, present fairly the position of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company at December 31, 1942 and the results of the operations for the year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PEAT, MARWICK, MITCHELL & Co.

New York, N. Y., April 26, 1943.

NOTES TO BALANCE SHEET AS OF DECEMBER 31, 1942

General

The accounts of the Company are maintained in accordance with the regulations prescribed by the Interstate Commerce Commission. It has been the practice of the Company to follow closely the I.C.C. form in presenting the balance sheet, but in the accompanying statement the assets and liabilities have been grouped to meet the changed conditions, including the reorganization proceedings.

The following items on the books of the Company have been excluded from the accompanying balance sheet; namely: Wisconsin Central Railway Company Preferred Stock carried as an asset in the amount of \$10,331,500.00, and Minneapolis, St. Paul & Sault Ste. Marie Railway Company (Soo Line) 4% Leased Line Certificates carried as a liability in the amount of \$10,331,500.00 and also accruals for semi-annual installments on the Leased Line Certificates carried as a liability in the amount of \$4,515,302.33, liability being denied for the reasons set forth under Contingent and Joint Liabilities; Canadian Exchange on Canadian Pacific Railway Company Advances, carried as an asset in the amount of \$709,230.65 under Other Unadjusted Debits, was written off to Profit and Loss in 1938 as having no value in view of reorganization proceedings, but reinstated in the accounts during the year 1940 on instructions of the Interstate Commerce Commission.

The investments of the Company in Road, Equipment and Securities, together with advances to affiliates, are stated in the balance sheet at the values at which they are carried on the books (at or below cost); no provision has been made as of December 31, 1942, for any reduction of the book values which may result from the reorganization of the Soo Line or any of its affiliates, as such final values cannot be determined until the accounts for the new company have been approved by the Interstate Commerce Commission. The advances by the Company to the Central Terminal Railway are specifically subordinated to the rights of holders of outstanding Central Terminal First Mortgage Bonds and to the rights of the holders of the notes issued to Reconstruction Finance Corporation which are secured in part by Central Terminal Railway Capital Stock.

No attempt has been made to indicate specific lien rights on the assets of the Company in the accompanying statement.

The Company's equity in the equipment under the Equipment Purchase Contracts is contingent upon payments as follows:

	Date of Maturity	Install Including		Unpaid Balance	Depreciated or Amortized Book Value	
	Maturity	Due	Amount	Daianco		
Electro-Motive Corp.— 3 Diesel Sw. Locomotives	9- 5-45	Monthly	\$3,507.47	\$ 111,562.65	\$ 195,886.76

Pullman Std. Car Mfg.— 100 Freight Cars	12- 1-47	Monthly	3,041.67	173,315.67	188,532.63	
Pullman Std. Car Mfg.— 250 Freight Cars	12- 1-48	Monthly	7,604.17	514,249.86	620,464.99	
Total				\$ 2,475,035.05	\$4,136,784.11	

Material and Supplies are stated on the basis of physical inventories taken as of September 30, 1942 for the Stores Departments, and October 31, 1942 for Line of Road, under the direction of officers for the Trustees and adjusted for transactions to December 31, 1942. The basis of valuation is cost.

CONTINGENT AND JOINT LIABILITIES

ing Mortgage Bonds Series "B"	31/8%	10-1-71

Principal and interest on \$14,737,000 outstanding in the hands of the public is guaranteed jointly and severally by the Soo Line and seven other owner railroads. Interest has been paid by the St. Paul Union Depot Company as it matured.

St.	Paul	Ur	nion	Depot	Company	Guaranteed		Serially to
N	otes	of	1941				1%	10-1-44

Principal and interest on \$600,000 outstanding in the hands of the Public is guaranteed jointly and severally by the Soo Line and seven other owner railroads. Principal and interest has been paid by the St. Paul Union Depot Company as it matured.

Description	Rate	Maturity
Minneapolis, St. Paul & Sault Ste. Marie Railway		
Company Leased Line Certificates	4%	4-1-2008

There are outstanding Minneapolis, St. Paul & Sault Ste. Marie Railway Company (Soo Line) Leased Line Certificates for 103,315 shares of Wisconsin Central Railway Company Preferred Stock deposited by the owners with the Agents, Bank of Montreal, as Trustee. These Cer-

tificates were issued pursuant to a "Preferred Stock Exchange Agreement" dated April 1, 1909, which provides for the payment by the Soo Line of \$4.00 per share per annum, in semi-annual installments, until and including April 1, 2008; and that the Soo Line shall have the right to vote such stock and enjoy all the rights and benefits of a holder thereof, until the year 2008, so long as it made such semi-annual payments. The Certificates provide that, upon sixty days default in any such payments, the owners of these Certificates have the right to an immediate transfer to them of the Wisconsin Central Preferred Stock for which they were issued. The holders of Certificates for 9,249 shares of Preferred Stock have had the stock transferred to them and such Certificates are endorsed with the legend "Cancelled, but without prejudice to any right of action for the enforcement of the provisions hereof and of said agreement."

Pursuant to a ruling rendered in 1913 by the Chief Examiner of Accounts of the Interstate Commerce Commission, the Company has carried on its books as an asset the Wisconsin Central Preferred Stock deposited in exchange for the Certificates and as a liability the Leased Line Certificates issued in exchange for such stock. The Leased Line Certificates did not obligate the Soo Line to the payment of any principal amount, but merely to make the semi-annual payments of \$2.00 per share. The Soo Line contends that the intent of the Preferred Stock Exchange Agreement and the Leased Line Certificates was that the Company should make payments thereon only while holding the Wisconsin Central property under the lease of April 1, 1909; that inasmuch as this lease was terminated upon the Company's surrender of the Wisconsin Central properties to the Receiver of those properties appointed by the Federal Court on December 2, 1932, the Company was thus relieved from the obligation of making any subsequent payments on the Leased Line Certificates. No provision is made in the Plan of Reorganization approved by Division 4 of the Interstate Commerce Commission June 17, 1942 and by the Court, November 13, 1942, for claims arising from the issue of Leased Line Certificates, other than the return of Wisconsin Central Preferred Stock.

Wisconsin Central Railway Company:

First and Refunding Mortgage Bonds...... 4% 4-1-59

Interest is guaranteed by the Soo Line on \$5,816,000 principal amount outstanding in the hands of the public. Interest was paid by the Soo Line pursuant to this guarantee from April 1, 1933, to October 1, 1937, inclusive. Interest accruing thereafter from October 1, 1937, to December 31, 1942, including unpresented coupons amounts to \$1,242,280.00. Claims for interest were filed by certain holders of these bonds in the reorganization proceeding, but the court has classified the claims as

general unsecured claims not entitled to preference and no provision for payment of these claims is made in the Plan.

		Date of
Description	Rate	Maturity
Wisconsin Central Railway Company:		
First and Refunding Mortgage Bonds	5%	4-1-59

Interest is joint and several liability of the Wisconsin Central and Soo Line on \$10,051,000 principal amount issued. Of this amount \$10,000,000 principal amount is owned by the Soo Line and deposited as collateral under its First Refunding Mortgage. The balance (\$51,000.00 principal amount) is held in the Wisconsin Central treasury.

Claim of Wisconsin Central Railway Company.

As indicated in previous annual reports, a claim arising out of the operation of the Wisconsin Central property under the lease of April 1, 1909, was filed in the reorganization proceedings by the Receiver of that property. The claim consisted of several items aggregating \$16,307,581.24, plus interest. This claim has, after litigation, been classified by the Court as a general unsecured claim, and, as previously stated, the Plan of Reorganization makes no provision for such claims.

Central Terminal Railway Company:

First Mortgage	Bonds	4%	11-1-53
----------------	-------	----	---------

The Soo Line and the Central Terminal Railway Company were joint and several makers of these bonds, of which there are now \$933,000 principal amount outstanding in the hands of the public. While originally due November 1, 1941, the maturity date has been extended to November 1, 1953, by agreement between the Central Terminal Railway and the bondholders. The Soo Line was not a party to the Extension Agreement and its Plan of Reorganization provides that this obligation shall not be assumed by the reorganized company. Interest and sinking fund requirements have been paid as they matured by the Central Terminal Railway Company.

Claims Filed in Reorganization Proceedings.

A contingent liability exists in respect to numerous claims, which have been filed in the reorganization proceedings. Such claims, with a few minor exceptions, have been classified as general unsecured claims for which the Plan makes no provision.

Note 1—While interest since maturity has been accrued on the books at the rate of 4% per annum on \$56,863,000 par value, and at the rate of 5% on the remaining \$14,284,000, the mortigage rate of 5% has been used in the treatment accorded all of these bonds in the Plan.

Note 2—Provision has been made by the Canadian Pacific Ry. Co. under its guaranty for interest up to July 1, 1938 included in the amounts indicated by a double asterisk (**).

Note 3—Although the Reconstruction Finance Corporation accepted 4% interest while it held these Notes, the contract rate of 5% has been used in treatment accorded the Notes in the Plan.

Note 4—Of the \$12,500,000 principal amount shown as "Held by Company", \$6,250,000 is deposited as collateral security for the Two Year Secured Notes, and \$6,500,000 principal amount shown as "Held by Company", \$6,250,000 is deposited as collateral security for the notes issued to the R. F. C. In the Plan the collateral security for the notes issued to the R. F. C. In the Plan the collateral substituted for the anotes.
